

Cognia Accreditation

Discovery High School is in its fifth year of operation and is accredited by Cognia. Cognia, formerly known as AdvancEd, is a non-profit, non-government organization that accredits primary and secondary schools throughout the United States and internationally. This organization believes that knowledge is the key to helping people reach their aspirations – regardless of circumstance or background.

A yearly review is done by the staff at Discovery High School. Each staff member is assigned to one of the three areas of Leadership, Learning, and Resources. They examine the standards for each topic and identify what we are doing to meet those standards. From this information we can make decisions for improvement. These meetings are ongoing and staff continues to collect evidence to document implementation.
